1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claims

Claims 9-11 are cancelled.

2. The following is an examiner's statement of reasons for allowance: cancellation of non-elected method claims 9-11 without traverse; withdrawal of prior art rejection of former claims 1-8 and 12-15 in view of: (1) amendment of independent claim 1, (2) applicant's arguments presented during telephone interview on August 29, 2006 and in a formal response filed on November 03, 2006. Prior art of the record does not disclose or teach applicant's claimed field emission electron source including: a substrate, an insulating layer, cathodes, a lead electrode, as specifically recited in claim 1, wherein claim 1 further recites a surface modifying layer includes "a surface-modifying layer having a substantially uniform thickness on a surface of each of the cathodes, the surface-modifying layer including a chemical bond between a cathode material having the cathodes and a

material different from the cathode material". Claims 16-17 are also allowed due to their dependencies on claim 1.

Newly presented independent claim 18 is also allowed since prior art of the record does not disclose or teach applicant's claimed field emission electron source including: a substrate, an insulating layer, cathodes, a lead electrode, as specifically recited in claim 18, wherein claim 18 further recites a material, which is different from a cathode material composing the cathodes, chemically bonded to the cathode material on a surface of each of the cathodes by exposing each of the cathodes to a plasma treatment, the chemically bonded material and cathode material constituting a surface-modifying layer having a substantially uniform thickness".

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
